GROSS LOANS BALANCE GROWTH (MNOK)

GROSS LOANS VOLUME (MNOK)

KEY COMMENTS:

- Mortgages increased by 119 MNOK to reach 2.735 MNOK in gross loans, accounting for 42 % of total lending
- Business lending performed well in the second quarter, with gross loans increasing by 54 MNOK to 188 MNOK, accounting for 70% of the total granted credit of 267 MNOK
- Unsecured consumer loans dropped by 280 MNOK partly due to the sale of non-performing loans (NPL) in Norway, totaling 167 million NOK. Issuance of new loans were temporarily scaled back due to limited capacity for growth until the NPL sale
- The sales financing agreement with Skeidar has been terminated, and we will assess our other sales finance partner agreements. We will instead focus our efforts and allocate capital to other, more profitable products.
